# HAPPY NEW YEAR

**It FINALLY happened!** We have moved into our NEW restaurant, and the comments from our guests have been overwhelmingly GREAT! We now have a kitchen big enough to do everything that we do without constantly bumping into each other, and with the new equipment we added, we will be able to create more good things to eat than we ever have before. As with any major change, there have been a few "bugs" in systems, and we are working diligently to correct them...THANKS to those of you who have visited already for your patience, and especially for your smiles and warm comments. Pictures on Page 3.

Our Party room/Meeting room/Special Events room has drawn a lot of interest, and we are already booking parties and meetings. If you need a room that comfortably seats 35 + for a meeting or party, or some other event contact us and we will work with you to make your occasion a huge success! We kept two of the big soft chairs and added a sofa, and put them in a room all their own for those times you want to enjoy coffee, or dessert and chat with friends. We hope you come in to see the new restaurant very soon!

We are looking forward to serving you and showing you around the ALL NEW Frosty Frog Creamery & Café!

As always, we want to know what **YOU** our terrific guests and friends have to say about everything that we do...If you have comments you can tell us directly, email us, go on line to [www.kudzu.com](http://www.kudzu.com) , [www.cantongeorgiadirectory.com](http://www.cantongeorgiadirectory.com) , or [www.citysearch.com](http://www.citysearch.com) , search for Frosty Frog Creamery, and tell the world! Thank you for allowing us to serve YOU!

## ORANGE JUICE MAY OFFER ARTHRITIS PROTECTION

It turns out that your morning glass of orange juice may be just the ticket for helping protect you from rheumatoid arthritis. Dr. Alan Silman at the University of Manchester in the United Kingdom recently conducted a study indicating that the vitamin C and carotenoids beta-cryptoxanthin and zeaxanthin found in orange juice can reduce one's risk of developing arthritis and slow its progression. So sip some juice or eat an orange for a healthy start to your day.

## Waterworld

Water covers approximately 70 percent of the world's surface. So you would think that finding potable water would be an easy task. But only 2.5 percent of the Earth's water is fresh and suitable for consumption. Yet more than two-thirds of that fresh water is locked away in glaciers and not available to help meet the growing demands for fresh drinking water.

## Don't Forget To Use Your Bonus Gift Certificates

Now that the hustle and bustle of the Holiday Season is behind us, it is now time for YOU TO RELAX! Come in and use your Bonus Gift Certificates... remember they are only good until **February 7th**.

## Tire Pressure and Cold Weather

If this area experiences a sudden cold snap, check your tire pressure, advise automotive experts Tom and Ray Magliozzi. Under inflated tires are dangerous, and tire pressure decreases by about one pound per square inch for every 10-degree drop in outside air temperature.

## STEP RIGHT UP

What would prompt you to walk more than 2,000 steps—the equivalent of a mile—per day? Apparently, according to a Stanford University study, a pedometer—that inexpensive little device that counts the number of steps we take. Simply monitoring how many steps we take can increase our physical activity by 27 percent (which, in turn, can help with weight loss and improved blood pressure). Using a log to keep track of the number of steps taken is another important aspect of getting and staying more active.

## Bubba Had Shingles.

Those of us who spend much time in a doctor's office should appreciate this! Doesn't it seem more and more that some physicians are running their practices like an assembly line?

Here's what happened to Bubba:

Bubba walked into a doctor's office and the receptionist asked him what he had.  
 Bubba said, "Shingles."  
 So she wrote down his name, address, medical insurance number and told him to have a seat.  
 Fifteen minutes later a nurse's aide came out and asked Bubba what he had.  
 Bubba said, "Shingles."  
 So she wrote down his height, weight, a complete medical history and told Bubba to wait in the examining room.  
 A half hour later a nurse came in and asked Bubba what he had.  
 Bubba said, "Shingles."  
 So the nurse gave Bubba a blood test, a blood pressure test, an electrocardiogram, and told Bubba to take off all his clothes and wait for the doctor.  
 An hour later the doctor came in and found Bubba sitting patiently in the nude and asked Bubba what he had.  
 Bubba said, "Shingles."  
 The doctor asked, "Where?"  
 Bubba said, "Outside on the truck. Where do you want me to unload 'em??"
